## BOOK NOTE

CASES AND MATERIALS ON THE LAW OF PRIVATE CORPORATIONS. By Louis Prashker. Brooklyn, N. Y., 1937, pp. 1233.

Professor Prashker has incorporated into one volume his two-volume work on the subject of corporations which was so adequately reviewed in the last issue of this law review.<sup>1</sup> As it is now available, the book should be most attractive to students, who will have their entire course between two covers. Lawyers, likewise, will welcome the one-volume edition with a single index as a saver both of time and space. Nothing need be added at this time to the words of praise which were so justly uttered by the reviewer of the contents of the original two-volume publication. Those who have used the book are surely aware that the reviewer did not overstate his case.
